

Mission

To improve the health and wellbeing of Tasmanian Communities by facilitating access to quality service providers

Vision

Everyone who needs help (from the primary care, disability and aged care sector) gets help

Strategic Goals

Sustainable Place-Based Workforce Planning and Development

Rural communities able to grow and develop their own primary care, disability and aged care workforces.

Accessing Quality Disability Services

Better access to quality intermediary services, regardless of where people live.

Accessing Quality Primary Health Services

An appropriate mix and distribution of quality primary health professionals working in a sustainable context.
