What is an NDIS plan manager?

A plan manager is a provider funded by the NDIS to help a person on the NDIS manage their plan funding. They receive and pay provider invoices, keep track of plan spending and help you understand how your funds are being used.

Plan managers give you the flexibility to work with registered and non-registered providers, while removing the burden of admin. You keep control your plan and supports, while the plan manager ensures your providers are paid accurately and on time.

Having a plan manager doesn't cost you anything. The NDIS puts additional funding into your plan under Capacity Building – Improved Life Choices. This covers setting up with your plan manager and the ongoing admin costs, including support and invoice payments.

Get award-winning support to manage your NDIS Plan.

With us, it's all about you.

Our experienced plan managers – many with lived experience themselves – help our Members get the most out of their NDIS Plans. We provide expert advice and can answer all your questions about the NDIS and the Early Childhood Approach.

Whether you're new to the NDIS, looking to change to plan management or in need of a new plan manager who offers more, we can help. Call us today on 1300 05 78 78.
